RESPONSE TO ADVISORY ACTION OF 9 NOVEMBER 2005

TO THE COMMISSIONER FOR PATENTS:

Status: This communication is made in response to the Advisory Action dated 9 November 2005. The Examiner objects to the alleged "newly added limitation" that the intermediary film be generally uncured and used as a precursor to final manipulation and curing process as found in amended claim 1. For reasons advanced herein, applicant submits that the above-referenced Advisory Action was issued in error, and that it should be withdrawn. If so found and withdrawn, applicant further submits that applicant's previously unentered amendment be entered and the application re-examined.
